Area Visited by Studds

Representative Gerry Studds appeared
Sunday at Mattapoisett Town Hall for
his 6th open meeting with constituents.
Questions, in the main, were of economic
matters and the gathering contained
businessmen concerned with government
impact on their ability to do business.
The initial questions dealt with the im-
possibility of businessmen to expand
their business when government regu-
lators like Simon are setting interest
rates so high that "he and others like
him" are controlling the rate of inflation.
The questioner said that reduced interest
rates would be a major factor in control
of unemployment since expansion of
business, if possible, would mean more
jobs. Studds replied that neither the
President or Congress has power over
interest rates which are set autonomously
by the Federal Reserve Board. He
said that Congressional attention is now
being turned to the desirability of chang-
ing the method of setting these rates.

Studds cited Congressional funding of
public housing as a method of boosting
the economic climate of builders. A
questioner countered with the opinion
that the man who owns his own property
takes far more pride in that property.
Encouragement of non-public housing,
therefore, would create a far more de-
sirable building stimulant if such pri-

vate home building were to be encouraged by reasonable mortgage rates.

Studds replied that the President has indicated that he would veto a Federal subsidy of home mortgage rates as an unwise use of Federal money. It was stated that the Federal government spends far more than the amount taken in. That there is foolish waste of Federal money on idiotic projects. How do you justify such expenditures such as the natural habits of the Australian tree frog? Studds replied that many such studies undertaken by the National Science Foundation have a legitimate reason such as cancer research. He said that constituents who have a specific study in question should send to him for an explanation which his office would obtain from the agency funding it.

Inflation was a concern of another meeting member who cited the mounting Federal debt as the major cause. Studds answered that the Federal debt is not the only cause for inflation. He stated that most government economists agree that we must have a

Federal deficit. He continued, "given the state of the economy, it would be unwise to balance the budget which would result in deeper recession, less taxes and more unemployment."

Another man from the audience stated that people are sick and tired of seeing healthy people sitting home collecting unemployment. He said that many work 16 weeks and then loaf while they collect and then go back to work for the minimum time. Why, he asked, should a healthy

worker lay around on a "vacation" and collect good money? Why couldn't the government employ people who are laid off from private industry and let them earn that money working in necessary municipal employment?

Studds replied that such unemployment is mostly State government administered. He said that it would be desirable to have uniform welfare standards applied throughout the nation. In this way, he stated, the more generous states such as Massachusetts and New York would not act as a magnet attracting welfare recipients from less liberal states.

Studds said that Congress has done absolutely nothing in tax reform. He said that people in the upper brackets are able to take advantage of tax shelters. A man in the audience countered that statement. He asked, how many people are there in that category? If the government were to seize all of the money of the people in the top level of income, would it make any appreciable dent in the Federal budget. Studds cited tax exempt bonds as an example of the kind of shelter that must be eliminated. These bonds, usually municipal bonds, are used by Federal, state and local government to finance public projects. Studds said that

the income from these bonds should be taxed but that the Federal government should subsidize them so that the State could market them at the same interest rate.

Studds repeated his contention that candidates should be supported in their campaigns through the Federal treasury. He said that the ballot check has provided enough money to support all major campaigns. The \$1.00 check off is a bargain for voters, he stated, even though some of the money may go to a candidate whom the voters do not support.

Studds said that Congress is unable to override President Ford's vetoes because of administration pressure on Republican members of Congress. He blamed the Ford Administration for the huge Federal budget deficit. He blamed President Ford for the vetoes of the Congressional spending bills which thwarts the Congressional will and business.

Photo top right, also by Admiral Batcheller, was taken in early October in front of his Mattapoisett Neck beach in early October and how the family has grown. Photo left bottom was taken by us on Saturday, January 17th, off the Mattapoisett beach and now except for the gray coloration, it is very hard to distinguish the kids from the grown-ups. The graceful creatures have been a constant source of interest since the adults adopted Mattapoisett as home. Many families have been raised in the Reservation area and have been observed in the harbor. Many thanks to photographer Batcheller for the family portraits.

Mrs. Kelenosy has worked with the local chapter since 1969 when she was Heart Sunday chairman and her husband was Town Chairman for Wareham. Mr. Kelenosy is in his second year as Campaign Chairman for the entire Chapter.

Mrs. Thomas Gayoski will for the second year head up the Town of Rochester which under her direction increased its income for the Heart Fund by over \$100 last year. Mrs. Gayoski, a staff nurse at Tobey Hospital, sees evidence of heart dollars in the form of equipment and training within the hospital as provided by the Chapter.

THE UNBRANCHED BANK

NATIONAL BANK OF FAIRHAVEN

75 HUTTLESTON AVE., FAIRHAVEN, MASS., TELEPHONE 999-5681

Some of the world's great banks are unbranched.

Like ours.

Not that we have anything against branches. It's just that most people like us right where we are. And they keep telling us so.

Instead of building branches, we've been building on. Putting it all together in one place. Right here on Route 6 where we're so easy to reach from practically everywhere. And the parking's easy.

Why don't you discover for yourself one of the world's great banks. What a real convenience our unbranched banking is. Either with Big Doc, our 24-hour teller out front. Or at our early-bird, triple-lane drive up window. Or in our main bank during regular hours.

Lots of banking options are yours when you bank with us. We're waiting for you. We want you to discover one of the world's great banks.

Ours.

MEMBER F.D.I.C.

Continuing as Marion Town Chairman is Mrs. Joseph Lipsitt, who has organized that town's drive for nearly twenty years. Mrs. Lipsitt supervises all segments of the campaign and got off to an early start with a benefit auction held at the Sippican Tennis Club last summer.

Mrs. Philip Murray is the new chairman for Mattapoissett and brings Heart Fund experience from serving as a member of the fund-raising committees for Heart Associations in New Jersey and North Carolina where she previously lived.

Pagenkopf expressed confidence in these town leaders and urged all members of their communities to work with them in supporting the important work of the Cape and Islands Heart Association.

BANTAM DIVISION: The Grizzlies won a tight one over Acushnet 6 to 5. Scoring for Rochester in this seesaw battle were Chip Urquhart with the 'Hat-Trick' with 2 unassisted goals and 1 assist from Mark Fairweather. Rusty Jenney got the Griz-

ing of January 13th with a moment of silent prayer in memory of Mrs. Hattie M. Sleightholm; and in memory of Henry A. Lund.

Mrs. Sleightholm, an Honorary Member of the club, was the oldest senior in Rochester.

It was learned that Mr. Lund had died as a result of an accident in Bedford.

During committee reports, eleven members with birthdays in January received gift-cards from Mrs. Thelma Dion, hospitality chairperson.

Mr. George Sousa, accountant, and Timothy O'Brien who had been appointed to audit the Treasurer's books, submitted their report. All records were found to be accurate and approved.

Under new business, three new member applications were accepted.

It was announced that February 2 will be the deadline date in mailing the order for the senior identification pins. Those who have not placed their order may do so by calling Mrs. George at 295-9364.

Following the business session, members enjoyed table games and refreshments, served by Mrs. Louise Leger.

Prior to the meeting, a Cake Sale was held. Our sincere thanks to all who helped in making the sale a great success.

POND LIFE IN WINTER

Winter is the time of sleep for many
creatures. When snow covers the ground
and the ponds are iced over, the woods
appear to be dead. But life goes on...
and in the most unlikely places! Who
would expect that anything could live in
the freezing cold water under the pond
ice; especially insects?

Roger Szal, Doctor of Biology, will bring
to the Museum many of the insects that
survive in the ponds in winter. He will
explain how these animals have adapted
to their cold, cold environment. This pro-
gram will take place at the Children's
Museum in Russells Mills, Dartmouth, on
Saturday, January 24th, at 2:00 P.M. Re-
gistration can be made by calling 636-4688

CARDIOBEEPER SYSTEM AT TOBEY

Every adult American has been made aware of the danger signals of a possible heart attack: heavy pressure or pain in the center of the chest; pain radiating to the neck, shoulder, or arm; and shortness of breath or sweating accompanying the pain. He has also been taught that prompt action is the most effective way to ward off an attack, or, possibly, save a life. And yet, even taking such precautions, many never reach a hospital.

Tobey Hospital's Emergency Physicians, often the first to treat the patient, have long been concerned about the "heart attack" situation. Today they are pleased to announce that medical aid is available almost immediately due to the installation last September of a CardioBeeper System.

A CardioBeeper Monitor is a pocket-sized device engineered to detect, process, and transmit the heart's rate and rhythm by placing its electrodes in the

armpits of the patient. Within seconds it can transmit an electrocardiogram comparable to one recorded using conventional techniques. The signals may be relayed either by telephone or radio to the CardioBeeper Decoder in Tobey's Emergency Room. The hospital physician can then give appropriate instructions to those at the patient's side. The Bourne Fire Department, which has personnel who have been trained as Emergency Medical Technicians, has its own CardioBeeper Monitor which it uses in conjunction with Tobey's equipment.

Dr. Jeb Boswell, Chief of Emergency Medical Services, notes that Tobey is one of the first Massachusetts hospitals to install such a system. He looks forward to extending these services throughout the entire Tobey Hospital Community in the near future and praises the cooperation given by neighboring Police Departments, Fire Departments, and laypersons in providing superior emergency medical care for all in the area.

Y. W. C. A. Events

Due to recent stormy weather many classes scheduled to start last week were postponed and registration is still open for some where there is room for more members. Call the YWCA, 999-6201, for full information regarding classes available. Classes and groups require YWCA membership. Visitors are welcome who are considering joining.

Mary Brundy, a teacher of Transcendental Meditation, will speak on the subject at Wednesday Weekly Luncheon January 28th, following an informal luncheon at 12 noon. Miss Bundy is a 1974 graduate of Cornell University where she majored in neural biology, and studied Science of Creative Intelligence in Switzerland. Miss Bundy states that transcendental meditation is a simple mental technique that allows the body to get a profound state of rest dissolving stress, strain and anxieties, thus allowing the individual to function more normally. Also, to use his potential, expand his

awareness, and become more creative.

The speaker will welcome questions from the audience, and the public is cordially invited. YWCA membership and reservations are not required.

Wives and Mothers Society will hold a Chinese Auction at its meeting Wednesday, January 28th, for the benefit of the treasury.

The meeting in the Blue Room is called for 7:30 P.M.
